*Reasons for Allowance*

The following is an examiner's statement of reasons for allowance:

The prior art of record does not teach or fairly suggest the combination of elements as recited in the independent claims. Specifically, the prior art of record does not teach:

communicating through an information specification interface with application programs for analyzing contents, deleting duplicates, and generating indexes,

the application programs registering as publishers and as subscribers for information,

publishing an information request message that includes a response topic for an application program through the information specification interface,

comparing information components created by a first application program with other application programs' subscriptions using the response topic of each information request and

notifying an applications program when a created information component matches the application program's subscriptions in response to monitoring an information component comprising a specified response topic for the application program.

The dependent claims being definite, further limiting and fully enabled by the specification are also allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
